

NEED FOR TOBACCO INCREASED BY WAR

Demand Keeping Pace With Growth of Our Army in France. MANY NEW BENEFITS Ardent Supporters Untiring in Efforts to Aid Patriotic Work.

A Thought Not Voiced. The cards sent back by the men who have had this tobacco fund expressed their thought in simple language. The soldier thanks the donor for that concrete thing, tobacco, which he is perhaps at the very moment of writing enjoying.

Send along the money now, this week. Tomorrow the fund will be in a growing pain; it is going to be a quarter of a million before very long. Help shorten the time!

Quoted Shakespeare. A friend of the smoke fund who does not limit his friendship to interpretations of money, although he is a weekly contributor to the fund, but hunts out the quaint thoughts and ideas which embellish his donation, frequently dropping into poetry, has recently sent the following interesting effusion:

Free to the Public. The rally will be free to the public and the collection to be taken will be for the benefit of the smoke fund. The speaker has a genuine message for the American people which he delivers under the title of "Back From Hell."

Other Concerts Coming. On April 12 comes the important concert of the Grand Opera House, 25, at the Commodore Opera House, in West Forty-fourth street, from which the fund will derive the entire money benefit.

True smoke weather has come, it should seem at this time of day when a man may get some comfort out of tobacco when he is out of doors. Everybody who buys this comfort from the Schute or the United cigar stores should remember to pass a little of it on by turning in his coupons and certificates to The Sun Tobacco Fund box.

CAMP MCELLELLAN IS LIKE BROADWAY

Amusement Features Cater to Every Taste of Troops in Cantonment. The biggest thing the smoke fund has on its schedule of entertainments devised and to be carried out for its benefit is the "Back From Hell" night.

President Praises Scouts. Incident Boys' Organization is Carrying Out Resolutions. President Wilson again has taken note of the patriotic service that is being done by the Boy Scouts of America.

SECOND DRAFT MEN WILL LEAVE TO-DAY

First Contingent Scheduled to Start Early, Reaching Camp by Noon. SEVERAL PARADES AHEAD Relatives and Friends Will Have Ample Opportunity to Say Farewell.

Arrangements have been made by the police to handle friends and relatives who will be on hand to say good-by to the men, and although nobody expects the men themselves will be allowed to enter the platforms at the terminals.

CONEY OPENS WITH CROWD OF 75,000

Resort Has Easter Finery That Exhibits Few New Furbelows. OLD ATTRACTIONS WIN Many Wearing of U. S. Navy Uniforms Join in Rush to Beach.

Although it costs 11 cents to ride on most of the "thrillers" now, and although the price of "hot dogs" is still a dime, Coney Island experienced yesterday afternoon one of the biggest and earliest openings in more than twenty years.

All day the Sea Beach and Brighton "Z" trains were jammed with people eager to reach "Coney" and get their first fresh whiff of salt air this year. And not the least interesting part of it all was the number of uniforms in evidence, particularly those of the United States Navy.

During its entire existence of twenty-two years Steeplechase Park, one of the larger amusement places, has never had a bigger or earlier opening. Most of the units that comprise this great concession were in full swing. Crowds of young people, thinking nothing of the wear and tear on the seats of their new Easter suits were bumping the bumps, spinning on the human roulette wheel and enjoying all the sports that this big enterprise offers.

Proprietors of the bath houses expect that the daylight saving plan will prove a great boon to their business during the coming summer. In years past, the sun has been almost impossible for bathers to get to the water except on holidays.
